

Matthew Anderson

L&D Platform Producer · Platforms · Community · Analytics

San Francisco, CA · matthewsfo@gmail.com · linkedin.com/in/picocat · learnmatthew.com

SUMMARY

Learning and enablement leader who builds the platforms, communities, and data behind how people learn. At Apple, grew an internal learning platform to serve teams across the organization, fostered the community that made it thrive, and built the analytics that proved its impact. Part designer, part builder, part leader, with roots in product management and the arts.

EXPERIENCE

L&D Producer, Learning Platform

2021 - Present

Apple University - San Francisco, CA

- Product manager for Apple's internal global learning platform across iOS, macOS, and web - owning roadmap, cross-functional delivery, and adoption for a worldwide workforce.
- Grew the platform to serve teams across the organization without expanding the support team, through automation, documentation, and a self-service enablement curriculum.
- Built the community and enablement systems - workshops, office hours, best-practice guides - that let content teams publish independently.
- Led an analytics modernization connecting learning activity to real-time insight and AI tooling.
- Architected the function from the ground up in a high-ambiguity environment with no existing playbook.

Creative Pro / Lead Creative

2012 - 2021

Apple - Retail

- Lead customer educator and product expert at flagship locations, delivering technical and creative training to thousands of customers.
- Made complex technical concepts accessible and actionable; contributed to regional training initiatives and mentored junior team members.

Store Leader & Market Training Lead

2004 - 2012

Starbucks - Seattle, WA

- Designed and delivered multi-unit training programs across a regional portfolio; built curriculum and measured outcomes against operational KPIs.
- As Store Leader, owned full P&L and led a team of 25+.

Gallery Coordinator

2002 - 2004

Viking Union Gallery, Western Washington University - Bellingham, WA

- Curated and produced international exhibitions; managed public programming and stakeholder relationships - an early foundation in audience-centered experience design.
